

SENATOR BARNETT: Mr. President I point a personal privilege and I have a question of the Chair.

PRESIDENT: State your point.

SENATOR BARNETT: Something was just put on our desks here about Snyder wants board explanation, it isn't signed by anybody and I wonder who put it here? I would like to have clarification of this.

PRESIDENT: Was it something like this?

SENATOR BARNETT: No, it has got some pictures on it, or something here.

PRESIDENT: Well mine has pictures on it too. Maybe Senator Snyder, do you have some input?

SENATOR SNYDER: I may have, I don't know. I neglected in not having my initials put on it before I had my secretary copy it and distributed it and I was just writing a note to the Clerk Mr. President to inform him that this piece of paper, which is a reproduction of a newspaper article which appeared in an Omaha paper yesterday, was authorized by me, and the distribution was authorized and I was totally remiss in not having my initials on there. But I was trying to catch it before it was caught by another alert member.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: I guess I have two requests then. I just was wondering if the person who passed this out Senator Snyder if he had the guts to sign it, and that refers to something that you stated in the paper not too long ago. I wonder if we should pick these up and have him sign them all before we can read them, or would you want to pass that by?

PRESIDENT: I don't think that that is necessary, but I would point out Senator Barnett, that mine does have the initials on it. That doesn't make it approved by the body and I understand that, but there was some attempt on his part to do this. Senator Burbach, do you want to test the water with 941? What is your pleasure sir. Ready for the General File debate of LB941. Would the Speaker come forward please.

CLERK: Read LB941

PRESIDENT: Chair recognizes Senator Burbach.

SENATOR BURBACH: I move to advance 941 be advanced to E & R.

(end belt #11)

(start belt #12)

SPEAKER: Senator Burbach.

SENATOR BURBACH: Mr. President, members of the Legislature this is a change on the statutes on the weight department weight division and I will read to you or relate to you those things which are new in this legislation. As a special energy conservation measure to operate vehicles loaded up to 15% greater than the maximum rate specified
